

FLECK CONNECTED SUITE

FLECK CONNECTED XTRI VALVE

AND PENTAIR APPS

Introducing the Fleck® Connected XTRi valve series, available on the 5800, 5810, and 5812 valves. This valve series features WiFi and Bluetooth® connectivity to sync with the Pentair Home and Pentair Pro apps. These solutions combine to power a connected water softener, which helps the homeowner take charge of their water with information at their fingertips.

FLECK CONNECTED VALVE WITH XTRi CONTROLLER

The Fleck Connected Valve includes the XTRi controller, which is WiFi and Bluetooth-enabled to connect with the Pentair Home and Pentair Pro apps. Available on models 5800, 5810 and 5812.

1

WiFi AND BLUETOOTH CONNECTIVITY

Same features as XTR2, now WiFi-enabled to allow Pentair Home app to connect with Pentair Pro app

2

REMOTE MONITORING

Monitor water usage, receive system alerts and connect with a local water treatment professional for faster service

3

PREMIUM TOUCHSCREEN LCD DISPLAY

Large color touchscreen provides an intuitive and reliable interface with custom programming capability and features such as a water savings regenerator

4

DURABLE CONSTRUCTION

Fiber-reinforced polymer valve body for superior strength and durability, non-corrosive and UV-resistant

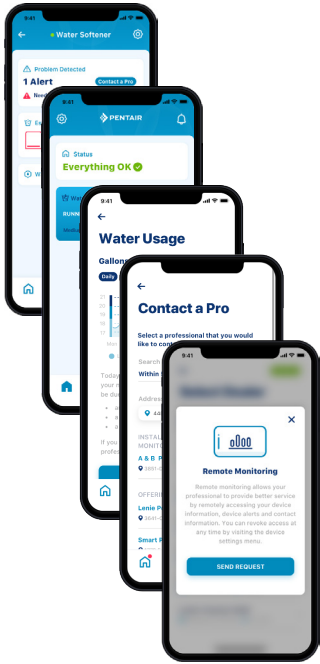

5

OPTICAL SENSORS

Optical sensors position the valve precisely for each regeneration cycle

PENTAIR HOME APP

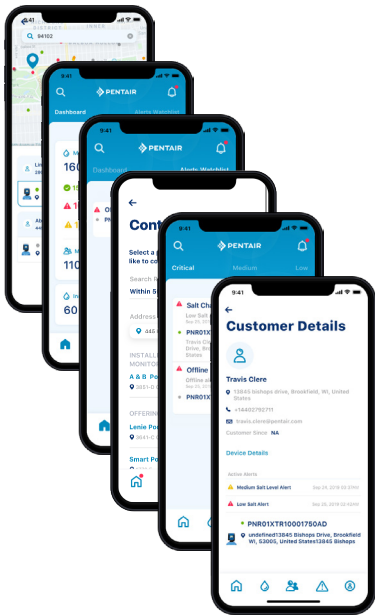

The Pentair Home app empowers homeowners to take charge of their water. With information at their fingertips, they can manage their water without worry and get help from a trusted professional when they need it most.

- 1 SALT REMINDER**
Alerts homeowners of low salt, so they know when to refill
- 2 SYSTEM STATUS INDICATOR**
Tells homeowners that their system is working properly
- 3 WATER USAGE DASHBOARD**
Alerts homeowners of unexpected changes in flow
- 4 PRO LOCATOR**
Locates a Certified Fleck Connected water professional to contact if homeowners need help
- 5 REMOTE MONITORING (OPTIONAL)**
Allows homeowners to share system information with a Certified Fleck Connected Pro Dealer, for accurate advice on settings and service

PENTAIR PRO APP

Features like Customer Alerts and the Pro Fleet Map View enable dealers to become trusted partners, save time, and grow their revenue. Certified Fleck Connected Dealers receive full access to the Pro App functionality.

- 1 PRO FLEET (MAP) VIEW***
Shows dealers a map and status of their fleet of installations so they are always more connected to their customers
- 2 SYSTEM STATUS INDICATOR***
Tells dealers that their customers systems are working properly
- 3 CUSTOMER ALERTS***
Alerts dealers of unexpected changes in customer's system status
- 4 PRO LOCATOR***
Allows customers to find dealers for product and service needs (and referrals)
- 5 REMOTE TROUBLESHOOTING***
Allows customers to send real-time system information to their dealers' device, for remote troubleshooting
- 6 SYSTEM HISTORY**
Provides access to customer's historical system data, so dealers can diagnose issues or optimize settings

*Denotes functionality available only to Certified Fleck Connected Pro Dealers. Contact your Pentair sales representative to learn more about certification.
